“Light Up” for Better Living

Eyesight is priceless
Light is cheap

Good lighting means using approved-type fixtures, floor and table lamps and equipping them with right-size bulbs. With both bulbs and electricity costing so little, good lighting, for protecting eyesight, is something every family can afford to enjoy.

Fire Alarm Signals

- 2 Blows calls out department for
slight fire in Precincts 2 and 4.
- 2 Blows after an alarm signifies
fire under control.
- 5 Blows call department for slight
fire in Precincts 1, 2, 3.
- 3 Blows with 5 seconds intervals
at 7:30 A.M. means no morning ses-
sion of any school.
- 3 Blows at 12:15 P. M. with 5 sec-
onds intervals between blows means
no afternoon session at any school.
- 9-9—With 5 second intervals Boy
Scout call.

Note—Where possible, a box alarm is preferable, as it notifies firemen of the location of the fire. Persons pulling in an alarm should always wait at box until the arrival of firemen so as to direct them to its location.

In giving an alarm by telephone be sure to give exact location of fire, street and number, whether serious or slight, and do not pull in a box alarm after engine house has been

called, as this is sure to cause confusion.

Drivers must in all cases after an alarm by telephone press box nearest to fire when there is the least possible danger.

Officers will see that a roll call is held after each alarm and report same within 4 days to the chief of the fire department.
